## **Drug Abuse Assistance Resources**

### **Substance Abuse Treatment Facility Locator**

- 1-800-662-HELP or <http://findtreatment.samhsa.gov>

Providing your geographical location over the phone or online will give you treatment options in your area. This helpline and website are maintained by The Substance Abuse & Mental Health Services Administration, a U.S. Dept. of Health & Human Services agency.

### **Center for Substance Abuse Treatment (CSAT)**

- [www.csat.samhsa.gov](http://www.csat.samhsa.gov)

To improve the lives of individuals and families affected by alcohol and drug abuse by ensuring access to clinically sound, cost-effective addiction treatment that reduces the health and social costs to our communities and the nation.

### **Addiction Technology Transfer Center (ATTC)**

- [www.nattc.org](http://www.nattc.org)

Dedicated to identifying and advancing opportunities for improving addiction treatment. The ATTC vision is to unify science, education and services to transform the lives of individuals and families affected by alcohol and other drug addiction.

### **Community Anti-Drug Coalitions of America**

- [www.cadca.org](http://www.cadca.org)

CADCA's mission is to build and strengthen the capacity of community coalitions to create safe, healthy and drug-free communities. The organization supports its members with technical assistance and training, public policy, media strategies and marketing programs, conferences and special events.

## **To Find Information**

### **US Department of Health and Human Services**

- 1-800-487-4890 or [www.health.org](http://www.health.org)

The National Clearinghouse for Alcohol and Drug Information provides various information and resources.

### **American Council for Drug Education**

- [www.acde.org](http://www.acde.org)

The American Council for Drug Education is a substance abuse prevention and education agency that develops programs and materials based on the most current scientific research on drug use and its impact on society.

## **Drug Statistics**

- 55.6% of the 18-25 age group have used an illicit drug, 31.9% within the past year and 18.8% within the past month
- In 2000, the total cost of drug use costs to society were estimated at \$160.7 billion
- Of the 35,000 arrests made in 2001 by the DEA, 38.8% involved cocaine, 9.4% involved heroin, 19.7% involved marijuana and 32% involved other drugs
- In 2001, 1,586,902 drug arrest were made by local and state authorities and reported to the FBI
- The DEA seized more the 3 million MDMA (Ecstasy) tablets during 2000, compared with 196 tablets in 1993
- According to the National Drug Intelligence Center's National Drug Threat Assessment 2003, cocaine is the primary drug threat in the United States because of its high demand and availability, expanding distribution to new markets, the high rate of overdose and relation to violence.
- Of the cocaine which enters the United States annually, 72% passes through the Mexico/Central America corridor. Another 27% moves through the Caribbean and 1% from South America.
- Marijuana is the most commonly used illicit drug. According to the 2002 National Survey on Drug Use & Health (NSDUH), it was used by 75% of current (past month) illicit drug users. Some 55% of current illicit drug users used only marijuana, 20% used marijuana and another illicit drug, and 25% used an illicit drug other than marijuana in the past month.
- Marijuana use is associated with numerous detrimental health effects, including frequent respiratory infections, impaired memory and learning, increased heart rate, anxiety and panic attacks.
